

# Base Risk Assessment- Green Beret 2025

This activity risk assessment must be read in conjunction with the HCSC General site risk assessment and Green Beret event risk assessment.

Event, and location:	Green Beret Day and Night Bases – 14 <sup>th</sup> -16 <sup>th</sup> November 2025	Date of risk assessment:	16/10/2025	Risk assessment reviewed by: (to be completed by DLV)	Doug Stack ACM HCSC Katy Pearce EM HCSC
	Hertfordshire Scout Activity Centres- Phasels Wood Activity Centre	Date of next review:	16/10/2026		
		Name of person doing this risk assessment:	Nicola Adams		

Base name:	Minesweeper	Base Number:	133
Brief description of base:	Scouts are presented with a mat with several squares. Each member of the Scout team takes it in turns to move across the squares from the start to the finish while avoiding the mines. Only the person(s) running the base will know where the mines are. This is an exercise in teamwork as the Scout will be relying on memory and their team's memory to work out where the mines are. Each member of the team has one minute to try to move across the squares without landing on a mine (total 6 minutes).	(to be completed by HCSC event organisers)	
When will the base run: day/night or both	Both		

# Base Risk Assessment- Green Beret 2025

This activity risk assessment must be read in conjunction with the HCSC General site risk assessment and Green Beret event risk assessment.

## General Risks for all Day and Night Bases:

Hazard - what could go wrong?	Who is at risk?	Assessment of risk	Control measures in place	Remaining risk using control measures
Inclement weather.	All	High	<ul style="list-style-type: none"> <li>Please refer to the HCSC general site risk assessment and Green Beret event risk assessment as appropriate.</li> <li>Base management team will monitor the weather forecast in advance and during the event.</li> <li>If adverse weather e.g., heavy rain occurs the team will ensure all base participants are updated on any changes to the programme or use of the site in accordance with main event managers instructions.</li> <li>The base management team will intercept any participants wearing unsuitable clothing for the weather conditions and ask them to return to their sites and change into appropriate clothing for the conditions. This includes sun protection as well as waterproofs and water bottles, and suitable footwear.</li> <li>A drink station will be provided for base leaders providing snacks and hot and cold drinks and the area will be available for leaders to warm up if appropriate.</li> <li>High winds – all gazebos and tents to use guy lines and to be weighted in case of adverse weather.</li> <li>If winds become high the base management team will assess bases and instruct the volunteers to dismantle bases seen as high risk of moving, or amend how they are operated if appropriate.</li> <li>In strong winds the possibility of trees or branches falling onto Base staff and participants must be assessed and if appropriate areas cordoned off and bases moved to more open areas.</li> <li>Bases must not be put under the drip line of trees.</li> </ul>	Low
Pedestrian impact from a vehicle.	All	High	<ul style="list-style-type: none"> <li>Please refer to the HCSC general site risk assessment and Green Beret event risk assessment as appropriate.</li> <li>Restricted access for vehicles during set up, only pre-agreed vehicle movements are allowed during set up as managed by the base management.</li> <li>No vehicles allowed in base area other than emergency vehicles and the vehicles that are part of an activity during the event and until the site is cleared.</li> <li>Information packs for participants/volunteers include details on no vehicle policy and emergency arrangements, including rule to not to set up equipment in areas designated for pedestrian/vehicles movements.</li> <li>Entry/exit points, and vehicle movement routes to and around the base area always marshalled by HCSC staff and Base Camp Team staff, emergency vehicle access locations agreed with site team prior to the event.</li> <li>No vehicles except those being used as part of an activity or emergency vehicles will be allowed in the bases area once the bases are open.</li> </ul>	Low
Medical emergency.	All	Medium	<ul style="list-style-type: none"> <li>Please refer to the Green Beret event risk assessment as appropriate.</li> <li>All Base providers are required to have first aid provision on their base for minor incidents.</li> </ul>	Low
